

Join Us on Our Expedition Through the World of Numismatics!

The Numismatic Directory opens up the colourful world of numismatics, presenting locations from all areas of the coin world on all continents. Your advertisement will not only promote your business, it will also support an important project that will bring coin enthusiasts from all over the world closer together.

What Is the Numismatic Directory?

The Numismatic Directory opens up the colourful world of numismatics. With our team and coin scouts all over the world, we are creating a digital address book for every coin enthusiast to consult. Using human intelligence, we not only list the big players that already dominate the Internet, but also places that cannot be found on any other map.

As always with CoinsWeekly, our services are free of charge for our users - not only for those who check out our maps but also for all non-profit organisations such as museums & coin cabinets, academic institutions as well as coin clubs and collectors' associations. The project is financed with the help of coin dealers, auction houses and all the other participants in the coin market who make money thanks to the passion of coin enthusiasts.

Your Company Portrait: Present Your Strengths!

Our company portraits present more than just your address. We give you enough space to present your company in detail and convince users why they have come to the right place.

You can provide us with a text, or we can write it for you (approx. 300 words). The cost for this and the translation into English are included in the annual fee. You can also add up to 6 pictures and give us up to four links to include in your portrait.

Companies that book an entry with us will be mentioned in the following weekly newsletter and we will link to your entry. Companies that book as part of a "regional promotion" will appear in a slider with "Our recommendations" with a picture and their address.

Cost:
 1st year = Euro 600.-

We offer special conditions for customers who commit for longer:
 2nd year = Euro 300.-
 Each additional year (for a maximum of three years) = Euro 75.-

Would you like us to cover the region where you live?

Then become a regional sponsor!

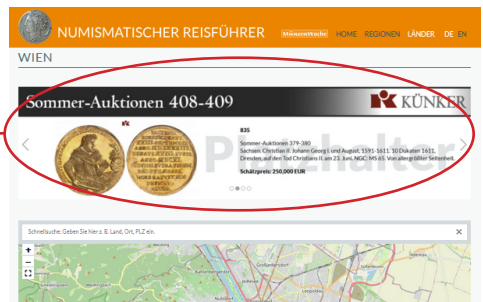

Regional sponsors not only receive the large slider above their region, but are also presented on their country's page under "Our recommendations".

Regions are processed in the order in which they are booked.

As soon as a booking has been made, we will create your region, and at this point half of the first year's fee will be due.
